Hey Ladies,

I wanted to get this primarily to Michelle as you prepare for your meeting this coming week. As you can see there is still lots of work to be done particularly where we can use your help is in the organizing of possible panel discussions versus single presentations. Also you can see that we have very few presenters confirmed on many of the Topics.

I am also wondering at this stage of things how we will tie everything in to a celebration. Or who can we guide the presenters to thinking in terms of successes and the journey they have taken in their presentation to get to where they are that leads to success. I don't know if I am being very clear maybe it is time for another meeting on the agenda.

Michelle, Melissa, Polly and I were talking and trying to make a some goals for getting the Agenda out and here is what we said we'd like to see:

Have this draft to Michelle for her meeting by June 4th

We want to have meeting with all of you one more time prior to the Large Committee Meeting which is scheduled June 10

Have a presentable agenda to the Large Committee by June 10

Have a public agenda on the website by July 15

Can we meet June 9 at 10 am?

We can make the changes necessary to include in the TLS planning committee packet with your changes

Thanks,

conference agenda
draft-Melissa Jun...
